Announcements Made From The Block Will Take Precedence Over Information In This Catalog.
Please bring this catalog with you on sale day! Bull videos available on: www.billpelton.com and www.kretschmanangus.com

Follow Cowboy Classic Angus Bull Sale on Facebook

TERMS AND CONDITIONS: All cattle sell under the suggested terms and conditions of the American Angus Association dated June 10, 2005.

DELIVERY: Buyers are encouraged to bring their trailer on sale day. Buyers taking their bulls home will receive a $100/bull discount off their purchase or your Cowboy Classic breeder will winter your bull at no charge until April 1st. Free delivery is available on bulls up to 250 miles on qualified purchases. Bulls left after April 1 will incur a charge of $2.50 per day for feed until picked up or delivered.

RETAINED INTEREST: All consignors; Swenson Cattle Company, Kretschman Angus, and Double W Angus - Beaver Creek Ranches and Oedekoven Angus are retaining 1/3 revenue sharing semen interest on their bulls selling in this sale. Buyer will receive full possession and full salvage value.

FIRST YEAR BREEDING GUARANTEE. Each consignor guarantees each bull sound and fertile at time of delivery. Bulls are guaranteed sound through their first breeding season 45 days. Death or injury to bull(s) must be verified by a licensed veterinarian (DVM). Consignor will either give credit to the buyer less salvage value, or reimburse buyer for cost of bull less salvage value, or replace bull at their discretion if a comparable bull is available

HERD HEALTH:
All sellers have adhered to a complete herd health program individualized to their ranches. All bulls selling out of state will meet the health requirements of the state before delivery.

ACCOMMODATIONS:

Host Hotel Hampton Inn	307-684-8899
call by March 1 for special Cowboy Classic rate.	
Historic Occidental Hotel:	307-684-0451
Holiday Inn Express:	307-684-9900
Best Western:	307-684-2256
Motel 6:	307-684-7000

BUYERS UNABLE TO ATTEND THE SALE CAN

ONLINE INTERNET VIDEO AND BIDDING

Broadcasting on CattleUSA.com Live Cattle Auctions

Note: Pre-registration is required to bid online.

General Instructions for online registration and bidding

1. Go to www.CattleUSA.com
2. First time users must register as a viewer.
3. In the 'Live Auctions' tab select the sale that you wish to register as a buyer (only if you wish to buy) and click the 'Submit' button.
4. Fill out the required contact and banking information then click the 'Proceed' button.
5. After you have been approved as a buyer you will receive a confirmation email. On sale day, log in and click the green 'View' button for our sale. You will have the bid console available to place your online bids. Click on 'Bid Now' to place a bid.
6. The bid received by the auctioneer will be the amount showing in the 'Price' box in the bid console.

Prospective Internet buyers should register a minimum of 48 hours prior to sale day. High speed internet required for viewing & bidding.

OEDEKOVEN ANGUS

Welcome to our Tenth Annual Cowboy Classic Bull Sale

David and Diana Oedekoven

We want to thank you, our customers for purchasing Oedekoven Angus Genetics. Without you there would be no sale. We hope you find the bull power you are looking for in this offering.

Our philosophy is to raise bulls that are very functional. They must have great feet, a wide base, be docile and perform on your ranch. Angus cattle have had a problem with feet. Bulls must have great feet to travel and to perform. The Angus Association has recently started to address the feet issue on Angus cattle. We believe this is a positive response. At Oedekoven Angus, we have been looking at feet for some time as we consider potential sires.

We strive to raise bulls with large scrotals. Large scrotal circumference is extremely important for early maturity in heifers. Bulls with large scrotals generally raise females with larger pelvic openings which should equate to easier calving. Our cows calve outside in February and March and our calves must have a lot of vigor to get up out of the snow and nurse. Feed efficiency is important and finding ways to reduce inputs while maintaining body condition can be a challenge. Our bulls and heifers convert feed in an efficient manner.

We do not tolerate wild or aggressive behavior in our cattle. They are culled immediately. It is a well known fact that docile cattle will perform better on the range and in the feedlot. Docility is one of the EPD's that we sort for.

All our bulls in this offering have been ultrasound for ribeye size, marbling and rump fat. All those numbers will be available on sale day. Our entire herd has been tested and is BVD PI Free, and currently free of AAA genetic defects.

As you look over our offering, remember that the information in this catalog can tell only part of the story. Stop by and see our bulls at the Buffalo Livestock yards on Friday prior to our Saturday sale. Call us if you have questions or would like additional information.

Our daughter, Cyndi has been purchasing a few females from us. We are very happy for her interest in the cattle business. She has a bull in this sale, and we wish her well as she continues to grow her Registered Angus herd.

Again, we thank you for your interest in Oedekoven Angus Genetics. "D Cross Branded." We look forward to seeing you at the 10th Annual Cowboy Classic Bull Sale!

David, Diana and Cyndi Oedekoven

OEDEKOVEN ANGUS

KRETSCHMAN ANGUS WELCOMES EVERYONE TO THE 10TH ANNUAL COWBOY CLASSIC ANGUS BULL SALE

We want to start by saying thank you to all past buyers and everyone who helps us throughout the year to prepare for sale day. Thanks to Jay and Brandi Hudson for providing us with excellent veterinary care. Jt Guest for clipping these bulls and making them look fabulous. Tanya and Todd Daniels, from Range Wise, for videoing . Steve Paisley, from UW, for carcass ultra-sounding . Those who help with catalog and flyer preparation and everyone who gives us a hand throughout the year with all ranch work . None of this would happen without everyone's help.

The bulls we are offering this year are sons of AI Sires and herd bulls that are chosen specifically by proven performance, not popularity. Their proven qualities include moderation, volume, thickness and great carcass numbers- all of this in a calving ease package. They are also producing fabulous females with great milk .We strive to raise cattle that perform well in our environment on grass but also will do well in the feedlot. EPD's are great, but we also want eye appeal. We use moderate framed, low birth weight bulls that also have muscle and volume. The end product is an animal with great numbers and great looks.

We develop our bulls right here. They are fed a high roughage ration with no silage of any kind. We are true believers that the 205 day weight speaks volumes for their performance. If you are looking for an Angus bull with lots of natural muscle, volume and length in a calving ease package, then we feel we have a bull for you.

All the bulls will have full breeding soundness exams by sale day and will also be carcass ultrasounded. We stand behind our bulls 100%.

Feel free to contact us at any time by phone 307-736-2327(H) 307-351-0794(c) or e-mail klkret@rangeweb.net Visit our website to see videos of all the bulls. kretschmanangus.com

God Bless,

Kelby, Lacey and Clancy Kretschman

Clancy, Lacey and Kelby Kretschman

WELCOME TO OUR 10TH ANNIVERSARY ANNUAL COWBOY CLASSIC ANGUS BULL SALE- what a blessing it has been!

At this sale you will find an outstanding group of Angus Breeders. All with unique and distinguished programs, but all have the same common goal of producing only top of the line progeny to meet our customer's goals.

Sarah and I would like to extend a heart felt thank you to all of our past buyers for your investments into our program. There is nothing more rewarding than to see you all come back year after year and listen to your great stories and seeing the smiles on customers faces.

This year's offering is a very complete and balanced set of bulls . These bulls are loaded with muscle, big topped, deep bodied, and have the feet and bone structure to breed and cover big country.

Again this year we develop bulls at home, by hand, which enables us to see the bull's development daily, making sure they each receive the proper ration and have the contact with people on a daily basis. The whole family gets to be involved, which teaches our children the importance of hard work, responsibilities and reward for your hard work. This years offering has some new and exciting up and coming sires that are taking the Angus breed by storm. Calving Ease,disposition,explosive growth,carcass and are phenotypically correct. These bulls have been on a optimal ration to bring out their genetic potential, not to maximize it.

We are extremely impressed with this set of bulls and these new sires we have selected and hope you will be as well.

Please contact us at anytime with questions you might have or if you're in the area and want to look at the bulls give us a call. We thank you for your continued support and affording us the opportunity to do what we love in an effort to provide for our next generation and their love for ranching and Angus cattle. We look forward to seeing you all on sale day.

Blessings from Swenson Cattle Company
Andy and Sarah Swenson
Cole, Shae, AJ, and Aspen

DOUBLE W ANGUS / BEAVER CREEK RANCHES

Welcomes you to the 10th annual Cowboy Classic Bull Sale

We began working on moderating the frame size and birth weights in our cowherd several years ago with a focus on maintaining weaning weights. This year's offering features bulls with an emphasis in this direction. Sires such as Connealy Black Granite, SD Active Duty 5056, and Mill Bar Hickok 7242 are working well as a start towards our goal. You can buy, with confidence, many light to moderate birth weight bulls with good weaning weights. Active Duty has been a particularly easy-calver for us. We continue to insist on a good disposition and sturdy footed animals, with females that can produce and wean an excellent calf and thrive on grass and a good mineral. No creep feeding here.

Our bulls have been raised then grown out on the ranch in 30-35 acre pastures with varying terrain of rocky hillsides and meadows. They are growing on a high roughage commercial pellet and primarily grass hay and a good mineral.

We are reserving 1/3 semen interest in all bulls selling, with full possession and salvage value remaining with the buyer.

The females are primarily the later calving cows in our herd and will sell as commercials. Papers are available for $200 extra per head payable after the sale.

Thanks to our past customers and for your interest in our sale.

Please contact us with any questions you might have or to view the bulls or our cow herd and operation.

We look forward to seeing you on sale day, March 9, 2019

Best Regards,
Pete & Lucy

Pete and Lucy Widener with grandsons Carter and Harvey

$Value Indexes – American Angus Association

$Values			
$W	$F	$G	$B
21.28	13.60	12.53	25.32

$Values are multi-trait selection indexes expressed in dollars per head, to assist commercial beef producers by adding simplicity to genetic selection decisions. A $Value has meaning only when used in comparison to the $Value of another animal. For example, just as with EPDs, variation in $Values between animals indicates average expected differences in the relative value of progeny if random mating is assumed and the calves are exposed to the same environment.

Weaned Calf Value ($W): an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. $W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value ($F): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

Grid Value ($G): an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value ($B): an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The $B value combines the contributions of $F and $G.

How do I use them?

$Values should be used to complement the criteria that producers already use when selecting bulls.

The $Values are not designed to be driven by a single trait, as an index is multi-trait by design. These selection tools are the result of the application of industry-relevant market values to Angus genetics for preweaning, feedlot, and carcass merit.

The $W, $F, $G and $B values on individual animals and the Sire Evaluation Report may be viewed at www.angus.org.

BEEF 360s top sire. His progeny prove why Capitalist 316 is in such high demand. Standing on a perfect foot, his structure and soundness are flawless.316 stamps his calves with a look of real style and quality with added muscle and big time performance. Progeny are wide based, dense and consistent. He is truly a calving ease sire with a CED of 14. And sire calves with exceptional growth and true Angus Beef look. His final proof - 316 daughters have beautiful udders super easy fleshing, and have an average nursing ratio of 103. We really love our 316 calves and so will you.

In our opinion one of the best Bulls in this years offering. He has calving ease and performance stamped all over him in a moderate yet powerfull stature. His young Dam JVC RITA B434 was hand picked as a heifer calf in the Jocko Valley Production Sale in Missoula, Montana. She has been outstanding ever since. Quickly becoming the best young cow in the SCC program. This breeding combination is one we are most proud of and it shows. This Bull has the potential to be great. We would like to collect this bull for in herd use at the buyers convience and our expense. Recommended for use on heifers

This young bull is a rock solid as his name SCC Granite Rock is out of the great Hilltop Granite 3302 at SCC and out of a great young productive dam. This wide based, big topped deep ribbed Granite son will add pounds and added value with his excellent carcass data on both sides of his pedigree. AJ Swenson's pick to be a great future Herd Sire. And this bull has the look and performance to do just that.

Pasture bred to a Powder River Angus Registered Bull.

David & Diana Oedekoven
(307) 674-7375

DOUBLE W ANGUS - BEAVER CREEK RANCHES

BRED FEMALES

We have, for many years, sold our later-calving bred cows & heifers through the auction on the first sale date after March 31st. This year we will again attempt to guess and identify those animals 2 weeks early.

These late calving cows & heifers will be from the heart of our herd (numbers to be determined several days, at most, before the sale). Cows and heifers will be pregnancy tested bred, and a guess will be made as to calving date.

All cattle will sell as commercials. Registration papers will be available for all cattle selling for $200 per head, in addition to auction price.

Bid accordingly.

A copy of pedigrees and registration certificates can be viewed at the sale or at the ranch

All adult cattle will be "one ironed", home raised and can be viewed at the ranch any time before sale date.

A Full vaccination / herd health program has been in place.

Feel free to call with any questions or for final numbers a few days ahead of the March 9 sale.

Pete & Lucy
